ABOUT US

EXPERTS

AJF Electrical Distributors takes pride in being South Australia's electrical, data and communication experts.

Established more than 40 years ago, AJF specialises in the supply and service of electrical, data and communication products to assist industry.

A part of the Royce Cross Group, AJF's sister companies are Royce Cross Electric Motor Group, which provides a range of electric motors and accessories, and Chains & Accessories, which supplies chains, sprockets, pulleys, belts, couplings, conveyors, gearboxes and electric motors.

This enables Royce Cross Group to effectively service all industry with a broad range of quality goods across the electrical and mechanical engineering applications.

EXPERIENCE

The AJF team is trained in its entire product range to ensure customers obtain the best service. AJF also is the authorised service agent for many of its brands.

PRODUCT RANGE

AJF is the South Australian distributor for:

ABB - low-voltage products;

AFL Global - fibre optic communication;

Alloy Computer Products - enterprise and industrial networking products;

POSTERS

VINYL BANNER POSTERS

Your hands carry germs you can't see.

How:

1. Wet your hands with clean water.
2. Soap them up.
3. Scrub them front and back, between your fingers, and under your nails.
4. Scrub for 20 seconds.
5. Rinse with clean water.
6. Dry hands with a clean hand towel.
7. Repeat often.

When:

- After using the bathroom
- Before eating or cooking
- After blowing your nose
- After coughing or sneezing
- After touching animals
- Any time your hands are dirty!

You can stop them from spreading.

Wash your hands!

BRADY 1800 113 896 bradyid.com.au

HOW TO WASH HANDS CORRECTLY

1. Wet Hands With Hot Water.
2. Apply Soap.
3. Rub Hands Together For 20 Seconds.
4. Clean Under Fingernails.
5. Rinse Thoroughly Under Running Water.
6. Dry Hands

SEMI-RIGID PVC POSTER

How To Wash Your Hands

Washing your hands correctly will reduce the chance of spreading germs.

1. Wet your hands with warm water and apply soap.
2. Rub soap into palms.
3. Clean the back of hands.
4. Rub between your fingers.
5. Clean your fingertips and thumbs.
6. Ensure nails are clean.
7. Rinse hands well, pointing fingers downwards.

Part No.	Height	Width	Material
853532	600mm	400mm	Semi-rigid PVC

LAMINATED POSTER

Personal Hygiene

Certain bacteria can remain active on our hands for up to three hours. During this time bacteria can be spread to everything we touch. This is particularly dangerous in catering environments where germs can multiply on food.

When To Wash Your Hands

- Before handling or preparing food.
- Between handling raw foods (eggs, meat, fish, poultry) and handling any other food or kitchen utensils.
- After handling raw foods such as meat, fish and poultry.
- After coughing or sneezing.
- After using the toilet.
- After handling your eyes, ears, nose or hair.
- Always make sure you wash your hands after using the toilet. This number of germs on the fingertips survives after a wash in the toilet.

How To Wash Your Hands

1. Use warm water.
2. Rub your hands together with soap and water for at least 10 seconds.
3. Pay particular attention when washing the areas between the fingers and thumbs.
4. Rinse thoroughly with a clean paper towel or clean hand towel.
5. Dry your hands thoroughly with a clean paper towel or clean hand towel.

No smoking

Do not smoke in areas where food is prepared and stored.

Part No.	Height	Width	Material
851916	590mm	420mm	Laminated
